

Petition

We the undersigned Residence of the 500 Block of Foxhall Place, SE; are opposed to one of the proposals submitted at the Community Leadership Meeting held on September 21, 2006, at the Walter E Washington Community Center; for the new development, which is to be called, **Highland Addition Redevelopment** and will have 142 unit. We strongly opposed the proposal for the developer's removal of the Cul de sac and extend Foxhall Place SE to Valley Avenue SE.

Foxhall Place is a senior citizens retirement community. It would be a great endangerment to open the street. Most of the residence has lived on this quiet street for more than thirty (30) years. And we want the Cul de sac to remain in place it is the original design for Foxhall Place. A fence was install years ago for the safety of the 43 Single Family dwellings We also object the idea of changing the Zoning requirement for this area.
