The District Department of Transportation (DDOT) has reviewed the Post-Hearing Submission and Revised Drawings submitted on June 15, 2015. The updated conceptual design has been improved to better align with DDOT design standards regarding tree spacing, bollards, and materials in public space. DDOT supports the concept moving forward to create the proposed pedestrian boulevard to the Ballpark and will continue to work with the Applicant to finalize the design surrounding the site and along the entire block of Half Street.
