

September 18, 2007

**To: The Office of Zoning
441 4th street N.W. Suite 200
Washington D.C. 20001
Case: No. 07-14A**

**From: Raymond W. Chandler
Single Member District
ANC Commissioner 5B03**

I am writing this letter in regards to the hearing held on 9/13/07, with The Office of Zoning, case no.07-14A. Since there is such a strong level of confusion and opposition surrounding this case; I am asking for the Board to consider stepping away from the map amendment. Note that my Community has not been informed on the Comprehensive Plan of 2006. Our lack of information pertains to the plan, and the rush by those seeking to rezone. This has my residents in a quandary to why now; with all the proposed projects on the table has my single member district on the defensive. I would like to be given the opportunity in working with The Office of Planning; to schedule a meeting with those who reside in the impacted area. In this meeting we will be working to explain what are the various degrees of the zoning changes involved in the plan; which only enhances our quality of life; not to take away from it. As a new Commissioner I have listened to all of my Community issues along with the advice from your office. This is why I have tried to the best of my ability to consider all aspects that would bring all parties together in harmony on this matter .

Sincerely,

ANC COMMISSIONER, RAYMOND CHANDLER 5B03
