

senior designer

Ms. Abdul-Rahman joined WDG Architecture in February 2006 as a Senior Designer. Her experience includes master planning, conceptual design, schematic design and design development for new construction and renovation projects. She has led design efforts for large scale residential, hotel, and office building projects. Ms. Abdul-Rahman also has extensive experience working with clients, principals, consultants, and project teams throughout all project phases. She has major involvement in project and staff scheduling, and also serves as a leader in the direction and growth of the firm.
