Zoning Commission

Subject: Make DC a more bikeable city - please pass the proposed changes to DC's parking regulations!

Dear Zoning Commission,

I support the proposed changes to DC's parking regulations. In this time of rising gas prices and concern about climate change, it's important we plan for a more walkable, vibrant, and affordable DC.

I think this is a really great opportunity to make DC a leader in being a bikeable and walkable city. I ride my bike to work each day, and the bike lanes are great - but I think there is so much more we could do. I'd love to have indoor parking for my bike as it gets to be fall and winter.

I don't have a car and love living in a city where you don't need to have one. I think more people would bike if we could take further actions such as making more bike parking, creating and enforcing bike lanes, and educating drivers about respecting bicyclists' rights. I encourage you to adopt these recommendations as a first step in this direction.

This is an opportunity to ensure our city grows to be even more walkable while encouraging more cycling and transit use, improving air quality, and reducing traffic congestion.

Please vote to support the changes proposed by Office of Planning, including:

- removing parking minimums for all housing and some commercial uses**
- implementing parking maximums where appropriate**
- requiring larger buildings to include bicycle parking**
- encouraging car sharing (i.e. Zipcar),**
- allowing shared parking, and**
- charging developers who want to build excess parking.**
