Washington, DC 20001

Subject: I Support Changes to DC's Parking Regulations

Dear Zoning Commission,

RE: Case No. 08-06-2

I support the proposed changes to DC's parking regulations. In this time of rising gas prices and concern about climate change, it's important we plan for a more walkable, vibrant, and affordable DC.

This is an opportunity to ensure our city grows to be even more walkable while encouraging more cycling and transit use, improving air quality, and reducing traffic congestion.

Please vote to support the changes proposed by Office of Planning, including:

- removing parking minimums for all housing and some commercial uses
- implementing parking maximums where appropriate
- requiring larger buildings to include lots of bicycle parking
- encouraging car sharing (i.e. Zipcar),
- allowing shared parking, and
- charging developers who want to build excess parking.

Sincerely,  
Jeffrey Platts

Dear Zoning Commission,

RE: Case No. 08-06-2

I support the proposed changes to DC's parking regulations. In this time of rising gas prices and concern about climate change, it's important we plan for a more walkable, vibrant, and affordable DC.

In particular I hope you will pay attention to and support the initiatives to increase bicycle parking; to provide more carsharing parking; and to limit the development of new on-street parking.

Sincerely,  
Thomas Lee

Subject: I Support Changes to DC's Parking Regulations

Dear Zoning Commission,

RE: Case No. 08-06-2

I support the proposed changes to DC's parking regulations. In this time of rising gas prices and concern about climate change, it's important we plan for a more walkable, vibrant, and affordable DC.

This is an opportunity to ensure our city grows to be even more walkable while encouraging more cycling and transit use, improving air quality, and reducing traffic congestion.

Please vote to support the changes proposed by Office of Planning, including:

- removing parking minimums for all housing and some commercial uses
- implementing parking maximums where appropriate
- requiring larger buildings to include bicycle parking
- encouraging car sharing (i.e. Zipcar),
- allowing shared parking, and
- charging developers who want to build excess parking.

Sincerely,

Dear Zoning Commission,

RE: Case No. 08-06-2

I support the proposed changes to DC's parking regulations. In this time of rising gas prices and concern about climate change, it's important we plan for a more walkable, vibrant, and affordable DC.

\*\* Cities are for people, not cars. Eliminate mandatory parking minimums, start charging developers lots of money for curb cuts for parking garages, more bike parking, enforce street parking and raise parking taxes so more revenue can be diverted to transit. \*\*

This is an opportunity to ensure our city grows to be even more walkable while encouraging more cycling and transit use, improving air quality, and reducing traffic congestion.

Please vote to support the changes proposed by Office of Planning, including:

- removing parking minimums for all housing and some commercial uses
- implementing parking maximums where appropriate
- requiring larger buildings to include bicycle parking
- encouraging car sharing (i.e. Zipcar),
- allowing shared parking, and

Dear Zoning Commission,

RE: Case No. 08-06-2

I support the proposed changes to DC's parking regulations. In this time of rising gas prices and concern about climate change, it's important we plan for a more walkable, vibrant, and affordable DC.

As a resident of dc for over 7 years, I believe this is an opportunity to ensure our city grows to be even more walkable while encouraging more cycling and transit use, improving air quality, and reducing traffic congestion.

Please vote to support the changes proposed by Office of Planning, including:

- removing parking minimums for all housing and some commercial uses
- implementing parking maximums where appropriate
- requiring larger buildings to include bicycle parking
- encouraging car sharing (i.e. Zipcar),
- allowing shared parking, and
- charging developers who want to build excess parking.

Sincerely,  
Tyler Coffey
