Re: CASE NO. 08-06-7

Dear Mr. Hood:

I am writing in support of the proposed revisions to the Zoning Regulations governing campus and institutional uses. As a current Foggy Bottom resident, I have had many opportunities to work with the administration of The George Washington University. I have always had pleasant experiences working with GW officials and they are eager to engage community residents on pressing issues in the local neighborhood.

I attended multiple workgroup meetings this summer and I support the proposed rewrite of the zoning regulations because it clarifies the rules that will govern the review of campus plans. I feel it will help both community residents and university representatives to know exactly what needs to be addressed during the campus plan process.

The dual level of review seems to be a waste of taxpayers resources. By removing unnecessary steps, it would allow community residents and the university time to focus more constructively on issues of mutual concern outside of the campus plan zoning process.

For these reasons, I urge the Commission to give favorable consideration to the proposed revisions submitted as it considers language to implement these concepts in the next stage.

Sincerely,

Cathy Long
