

## Petition to support BUILDING AN INCLUSIVE CITY

The undersigned individuals and organizations believe that the **Zoning Regulations Rewrite (ZRR)** is an opportunity to move DC's housing production zoning rules away from exclusivity and towards the goal of Building an Inclusive City as required by the DC Comprehensive Plan. As such, we ask:

- The DC Zoning Commission, City Council, and Mayor **eliminate** all current and proposed **zoning rules** in the District **which exempts developers from the requirement to build low- and moderate-income housing** in **any parts of the City**, including the Downtown District.
