

Opposed to Zoning ReWrite: Opposed to Zoning Rewrite: Case # 08-06A

Addressing: 1 Add-on dwellings 2 Neighborhood convenience stores 3 Bicycle city

I am an 83-year old woman experienced in " life", having lived in DC 50 years.

- 1 Looking out your windows and seeing a sunrise or sunset will be a beauty of the past.
- 2 Quickest way to visit a neighbor is to crawl out your window & into theirs.
- 3 Close proximity of big houses extended rentals/families etc... equals high level of neighbor friction and noise pollution.
- 4 Convenience stores? Wrappers everywhere, discarded food attracting mice/rats. No more parking - Cars double-parking, while kids hang out/playing in streets.
- 5 Bicycles? Senior citizens balance-not so good. If they fall off the bike or run into your car, or lawsuit, worse yet death...guilt trips -plenty.

Remember old age creeps up on everyone. Still, if one is lucky so does wisdom.

Meanwhile, the Nation's Capitol is beginning to look like a shanty town in a 3rd World Country.
