Re: Subtitles G, H, I, and K of Draft Zoning Regulations (September 2013) -- Petition for Regulations of Big-Box Retail Development

Dear Chairman Hood and Members of the Zoning Commission:

Enclosed please find a copy of a Petition from the D.C. Big Box Zoning Coalition ("Coalition") with additional residents who support the goals of the Coalition. This coalition seeks to regulate the adverse impact of large retail projects in the District by proposing that these projects secure a special exception from the Board of Zoning Adjustment before they may proceed with development. The zoning rewrite underway is the best opportunity to incorporate this policy.

Thank you for your time and consideration in this matter.

Very truly yours,

Michael Kroopnick
G. Macy Nelson

DC Big Box Zoning Coalition

presents a Petition To DC planning officials (OP, OZ, Mayor & Council)

I send this note to DC planning officials to strengthen our zoning regulations for the future of our City. Right now there are no zoning regulations and no open public process to discuss adverse impacts that large retail projects, like Walmart, have on DC neighborhoods. This must change. The Zoning Rewrite is our opportunity to add zoning regulations which require that big box developers seek a special exception from the Board of Zoning Adjustment. These regulations will actually provide an open forum for community discussion and decision-making about big-box developments in our City. By adding these big-box regulations, the City can better evaluate big-box adverse impacts and help protect DC neighborhoods.
