Greetings Chairman Hood,

My name is Kymone Freeman and I am the co-founder of We Act Radio in Anacostia. This letter serves as an endorsement of Stan Voudrie's and Four Points Media proposal for new Artist work/living space and the general public living space located at Chicago Street and MLK Avenue SE being offered at 60% AMI that will serve to provide workforce housing for the bottom 50% of the city's population.

As one of the few media outlets East of the River, I have had the chance to work with Mr. Voudrie and have produced a broadcast media production addressing gentrification. I find Mr. Voudrie and this particular project to be worthy not only of the community's support, but as shining examples of conscious capitalism that should serve as a city-wide model to follow to off-set displacement while still making profits.

The proposed project he has presented would be a welcomed addition to the Anacostia Historic District and I look forward to the groundbreaking ceremony. He has my full support and feel free to contact me as I can answer any questions you may have.

Kymone Freeman

Co-Founder / Program Director
