Subject: Support for LDS Chapel Construction on 16th & Emerson Street, NW

Ms. Steingasser & Ms. Thomas:

I support the construction of the LDS Chapel on 16th and Emerson Streets, NW.

I work as a structural engineer in Georgetown and live in an apartment in Chevy Chase, MD, two blocks north of the DC bounday. A large part of my decision to relocate this December will be based on where my family will be able to attend a local LDS congregation and our preference is to walk. This chapel's location would allow me live, work, and worship in the same area.

LDS congregations are organized geographically and called wards, much the same as DC's own wards, and contribute positively to their community with the services and youth programs offered. 73 parking spaces are being provided by the construction of an underground garage to alleviate the concerns voiced by neighbors.

Thank you for your time. I hope to see this building constructed as planned.
