RE: Zoning Commission Case 08-09, 16th Street Heights Overlay

Dear Ms. Shellin,

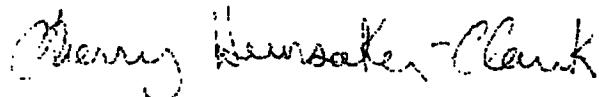

I am writing this email to support building a church building on 16th street and Emerson in DC.

I am a member of this church and know that we need a bigger place to worship. While we are thankful for the space in which we have to worship, our current location is too small and there is simply not enough space for all activities. It is very over crowded.

The new building will not be a burden on the neighborhood. It is a neighborhood church. Because of its location to the members of the congregation most people will walk to church. This will result in plenty of parking for those who do drive. It is also a church that is mainly accessed on Sunday, so it will not increase traffic during rush hour.

Thank you for your time and attention to this manner.

Sincerely,

Cherry Hunsaker-Clark
