Mr. Anthony Hood
Chairman
D.C. Zoning Commission
441 4th St. NW, Suite 200S
Washington, DC 2001

Re: Letter in Support – ZC Case No. 09-03F – Skyland Town Center

Dear Chairperson Hood:

I am writing this letter to make the Zoning Commission aware of my support for the redevelopment of the Skyland Town Center. I think the modified project will be a great addition to our community. I think that the proposed Lidl grocery store, the Starbucks (with a vehicular drive-through), the additional retail stores, and the medical office building will provide shopping opportunities and quality food options for the residents of wards 7 and 8.

Our family has lived in this community and neighbored the current Skyland Town Center development sight for more than 50 years. We welcome the investment in our community and look forward to enjoying the added amenities.

I want the Zoning Commission to know that our community has waited a long time for the development of this project to happen. With the opening of the first phase of the project to happen soon and your approval of this application, we will finally get the types of stores and services that our community has been promised for a long time. Thank you for your attention to my comments.

Sincerely,

Demar Freeman II
Natasha Freeman
