REF: Case 11-07C, Minor Modification , American University Campus Plan

Dear Chairman Hood,

As the owner of a home in Westover Place located one property away from the wall abutting American University's East Campus development, I have closely followed all aspects of this project since plans were released in 2011. At this time, I wish to register for the record my full support for the proposed two-level underground parking garage with 150 spaces. In addition, I lend my unequivocal support to American University's clarification that charter buses will not be permitted on the East Campus.

Any further holdup with this already-delayed project will simply add to the ongoing objectionable conditions it creates, not only for Westover Place but for the neighborhood as a whole, notably noise, dust and traffic congestion.

I hereby request that the Zoning Commission approve at its meeting next week AU's request for these minor modifications to permit construction to move forward without any further impediments to speedy completion.

Thank you very much for your consideration.

Sincerely yours,

Jane E. Becker
