Dear chairman Hood.

I am aware of Horning Brother's Stanton Square project that has 120 apartments and 42 townhouses. In addition to Martha's Table and Community of Hope Services for the Community. I believe that the nutritional service, early childhood programs and health care offerings will be very beneficial.

I have been a resident of Craver Hall Horning Brother's property for over four years. I find that Horning Brothers is an excellent property manager and addresses the needs of residents. I'm excited that they will be managing the Stanton Square project.
