

Dear Chairman Hood

I am aware of Horning Brothers Stanton Square project that has 120 apartments and 42 townhouses in addition to Marthas table and Community of Hope services for the community. I believe that the nutritional services, early childhood programs and health care offerings will be very beneficial.

I have been a resident of Fort Stanton Horning Brothers property for over four years. I find that Horning Brothers is an excellent property manager and addresses the needs of residents. I'm excited about the Stanton Square Project. I am supportive of this project.
