

GOVERNMENT OF THE DISTRICT OF COLUMBIA  
HISTORIC PRESERVATION REVIEW BOARD

**HPRB ACTIONS**  
**September 27 and October 4, 2012**

The Historic Preservation Review Board met to consider the following items on September 27, 2012. **Present: Gretchen Pfaehler, Acting Chair; Rauzia Ally, Andrew Aurbach, Maria Casarella, Graham Davidson, Nancy Metzger, Robert Sonderman, and Joseph Taylor. Absent: Catherine Buell.**

**SEPTEMBER 27<sup>TH</sup> AGENDA**

**HISTORIC LANDMARK**

McMillan Park Reservoir, North Capitol Street & Michigan Avenue, NW: Consideration of draft master plan and design guidelines (*continuation of July 12<sup>th</sup> meeting*).

*The Board members expressed appreciation for the tremendous amount of thought put into the plan, the efforts made to date (including improvements made since presented in July) and their belief that the plan was moving in the right direction. However, the members found that in trying to relate too closely to the many disparate conditions around it, the plan resulted in a loss of McMillan as a unique place that is distinct from what is around it. The Board members specifically cited the north and south edge conditions and the loss of the site's topographical plinth as problematic, and found the design guidelines to be too generic and not strong enough in citing what was important in preserving at this site. The Board asked that the design guidelines be revised and represented.*

**SMALL AREA PLAN REVIEW**

Walter Reed Army Medical Center, 6900 Georgia Avenue, NW: Consideration of draft small area plan for the campus (which is pending historic district designation).

*The Board reviewed the draft plan and heard a presentation by the Office of Planning and the Office of the Deputy Mayor for Planning and Economic Development. The Board members made some preliminary comments, generally favorable, and generally in keeping with the points raised in the staff report. They expressed particular interest in retaining a feeling of the unity of the installation's character and identity, and continuity and connectedness within the campus, including the parcel anticipated to be transferred to the Department of State and the northern redevelopment parcel. They also expressed a concern for maintaining views into the property and concern about potential demolition. The Board requested a site tour, after which it may offer further comments.*
