Anthony Hood

Chairman

DC Zoning Commission

Subject: Please approve the VMP PUD!

Dear Chairman Hood:

I am writing to express my strong support for approval of Vision McMillan Partner's (VMP) first-stage and consolidated PUD and related map amendment to rezone the McMillan property to CR and C-3-C Zone Districts.

As a resident of the surrounding community, I have observed and participated in VMP's tremendous efforts to work with and for the community to conceptualize and develop plans for the former McMillan Sand Filtration Plant. The result is the creation of a place that local residents will enjoy and benefit from and that the greater District community can be proud of. VMP came back to the community to work through concerns and changes and have consistently addressed these with thoughtful revisions.

The proposed plans, which truly pay homage to the historic significance of the site while providing a beautiful, new place to work, shop, play and live, offer residents and the district many tangible benefits, including:

- 12 acres of new, public open and green space;
- 3,200 permanent jobs;
- \$1.2 billion in new tax revenues;
- New contracting opportunities for local, small and disadvantaged businesses;
- Preservation of all 24 historic buildings on site;
- Local serving grocery and retail;
- A walkable community;
- 17,000 SF community center and pool;
- Affordable housing during a time that many consider the housing shortage to be at crisis level;
- And finally, an opportunity for the fences to come down so that we can actively enjoy this local treasure.

I join many in this community in asking for the support of the Zoning Commission on this issue -- just because we may be less vocal than those opposed to the project does not mean our views should carry less weight! I am grateful for your thoughtful review and often-thankless work to bring meaningful and sustainable development to the District.

Sincerely,

Kate Charlet
