

fter 30 years in the neighborhood listening to more ideas than I can count and to the chorus of negative reaction my biggest fear is we are about to squander yet another opportunity to make this vacant, fenced property into something useful. Do I like every piece of the proposal before you! Nope. Am I worried about traffic? Yep. My greatest fear is nothing will get approved.

I'm okay with a mixed use development with a park, offices, housing and retail that doesn't erase the character of McMillan but puts a purpose to the property.

Sincerely,

Richard Maze
