McMillan Coalition For Sustainable Agriculture

We understood our party status request dated May 5 to have been dispensed with on Monday night.

Regardless, the Office of Zoning did not inform or warn our group in any way that Commissioners would have questions in reconsidering our party status tonight.

~~AND SO~~ extending the disenfranchisement of our voices + group.

- disenfranchised by electoral fraud put Mayor Gray in office 2010
- democratic participation subverted and manipulated by DMPED and VMB retaining Fontaine Agency to conduct unethical/illegal committee input to support Applicant -
- Zoning Commission provides democratic participation, responsible for bringing in public

③

The disenfranchisement comes by way of wrongful denial of "party status"

which has prevented us from cross examining the parties in this matter particularly DMPED

Thursday zoning hearing (2)
member Debra Haurahan was
present.

Daniel Golden Wolkoff applied and
was granted "party" status, was
sick this week, recovering from
flu/bronchitis and arrived 9:00pm
due to illness.

Request hearing rescheduled
and extended

our democratic participation
irreparably harmed unless we
are allowed our access which
was granted approval -
we have critical questions for applicant.
Thank You.

Dan Wolkoff
