

Dear Mr. Hood

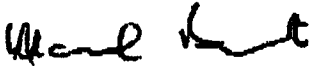

As a homeowner at Westover Place and an American University neighbor, I have been following closely case number 11-07C on the AU development of The East Campus.

Mindful of the importance of the case for all parties concerned, I would like to offer the following comments on the case for your consideration and that of the Commission.

- 1) I support AU's plan to build a 150 vehicle two-level underground parking garage;
- 2) I strongly believe that any changes to the University plan leading to delays in the construction schedule would result in a lengthening of the already long period of time when the construction will create undesirable traffic congestion and noise problems for the neighborhood; and
- 3) I am in favor of the AU plan to limit bus parking in the new campus.

As a result, I request that the Commission approve AU's application for a minor modification in the underground garage as well as its offered prohibition of bus parking on the East Campus.

Sincerely,

Manuel Benedito
