

Dear Ladies and Gentlemen of the Zoning Commission: RECEIVED
OFFICE OF ZONING

2015 JAN 15 AM 8:41
I did not invest my life savings in my Washington DC rowhouse to share a wall with a four story apartment building. I do not want to listen to the noise from 4 apartments through our shared wall. I do not want my kids to play in my backyard in the shadow of a huge pop up/back and I do not want to BBQ in a Panopticon.

If I wanted to live in a condominium I would have purchased a condo.

Thank you for protecting my investment and other homeowners like me who are at risk of living in situations that they did not buy into in order to allow outside developers to make a buck or to satisfy some nebulous need for "greater density."

Build apartment buildings, sure. Density ...great. They should not share a wall with my home however.

Thanks for doing your job to protect the homeowners of Washington DC.

Best Regards,

Todd Crosby
