Re: ZC Case No 14-11

Dear Chairman Hood and Members of the Commission:

I write in support of ZC Case No 14-11. It's perfectly reasonable to limit pop-ups to a single story in a residential area like ours in Bloomingdale. It is in the interest of our community and our city to maintain the character of historic neighborhoods. Pop-ups disrupt the aesthetics and functions of neighboring buildings, even blocking functional and useful utilities such as solar panels.

The best aspect of this amendment is that it will not prevent homeowners from adding an additional story to their homes, if they need additional room.

Please adopt this amendment to preserve our past and protect our future!

Best,

Catherine Chandler

Re: ZC Case No 14-11

Dear Chairman Hood and Members of the Commission:

I write in support of ZC Case No 14-11. In fact, I would like to see the proposal go even further to stop unsightly "pop ups" and "pop backs "

Ugly pop ups are sprouting like mushrooms across the District. Developers are racing to buy and convert single-family homes into million-dollar condos or apartment houses.

This amendment has the potential to stop these ugly buildings from continuing to multiply in our city. It will prevent developers from turning single-family homes into monstrosities that can ruin the look of an entire block. It will not, however, prevent homeowners from adding an additional story to their homes, if they need additional room.

Please adopt this amendment.
