Washington, DC 20001

Re. ZC Case No 14-11

Dear Chairman Hood,

The Capitol Hill Restoration Society strongly supports this text amendment. The amendment is a reasonable response to the unsightly additions to row houses popularly known as "pop-ups." We believe that this amendment strikes an excellent balance between protecting the architectural fabric of row house neighborhoods and allowing additions to these row houses.

For these reason, we urge the Commission to approve the amendments.

Respectfully,

Gary M. Peterson, Chair
Capitol Hill Restoration Society
Zoning Committee
