Subject: In support of MidCity Development's application 14-18A

Dear D.C. Zoning Commissioners,

I am a current D.C. resident who is fully supportive of MidCity Development's application 14-18A, due to come before the Commission this Thursday.

In a city with increasing property challenges for low-income residents, I applaud MidCity's voluntary decision to maintain the project based Section 8 housing on the site. Additionally, their current and future plans for social service programming for affordable residents reflects their longstanding commitment to affordable housing and the needs of community members throughout the District. The two beautifully designed buildings outlined in this application will provide high quality housing for current residents to replace outdated and unattractive housing stock.

I support the responsible efforts of MidCity in their development and community engagement and look forward to the opportunity the overall project will bring to residents and their extended community.

Thank you,

Allison Fastow
