Re: Z.C. Case No. 15-03 – 1315 Clifton Street NW

Dear Chairman Hood and Members of the Commission:

As a resident in 1323 Clifton Street NW, Apt. 35, the building adjacent to the proposed project site, I am writing to express that I **do not object** to the proposed project. My building is located directly west of the proposed project site, and my unit faces east toward the proposed project.

I have met with the developer on multiple occasions and have reviewed the proposed project plans. The developer has sufficiently acknowledged and responded to my concerns, and I believe that the proposed project will bring benefits to the neighborhood.

Sincerely,

Julie M. Schofield
