**Re: Z.C. Case No. 15-03**

Dear Chairman Hood and Members of the Commission:

As a neighbor, I am writing strongly in support of the Aria Development Group proposed project on Clifton Street. My family and I live nearby on 13<sup>th</sup> Street between Clifton and Euclid, around the corner from the proposed project. We believe this building would be a tremendous improvement to the neighborhood.

Additionally, in living here many years, we have seen these developers, as building owners, continue to take an interest in the neighborhood, the community projects, the management and maintenance of the buildings they own. They show a continuing commitment for the quality of life in Columbia Heights. We believe both the building as proposed and these developers are an asset to our neighborhood and to Columbia Heights.

As a resident of Columbia Heights, and a neighbor to the proposed building, I strongly support the development of the Clifton Street project referenced above.

Sincerely,

Guadalupe Elizaldi
