

Petition to Downsizing the Plans for the site at Bruce-Monroe Park.

Petition summary and background	Mayor Bowser approved the developer Dantes Partners to build a 9-story building in a low-rise residential area on the Bruce Monroe Park site. The development will include 273 apartment units, 8 townhomes, and 76 senior citizen apartments for low income, moderate and market rate tenants. Parkview Community Partners and the District of Columbia government filed an application with the Zoning Commission seeking approval of a consolidated review and approval of a Planned Unit Development (PUD) and zoning amendment; Zoning Proposal 16-11.
Action petitioned for	We, the undersigned, are concerned citizens who urge our leaders to act now to renegotiate the proposed design for the Bruce Monroe Park. We want a building that is no more than 5-stories tall, free parking for existing neighbors within two hundred feet of the park, a larger park that might include a full basketball court, a playground with swing sets and muscle bars, sliding boards, jungle gyms, chin pull up bars, a seesaw, benches and tables, two working water fountains, bathrooms with sinks, and two toilets to accommodate both males and females. We also want total transparency of the entire process. The Bruce Monroe Park has been instrumental in our community building process. We do not want to lose that.
