

Case 16-11 Zoning Commission Hearing
Dec 5, 2016

Testimony of Earlene Grastly

Good Evening - my name is Earlene Grastly and I've lived at Park Morton for 15 years. I'm here today to tell the zoning commission that it's important for us to stay in our neighborhood during the redevelopment. Living in Park Morton has been a blessing to me. I have overcome so much, gotten saved, and built a family here. I use save right, the dollar store, giant, and it's a blessing. I don't want to have to leave and take my family somewhere else if I don't have to. I didn't wait here all this time for nothing - My family should be able to benefit from all the redevelopment happening in this area. If they were in our shoes and it was one of their love ones they would want the same to happen. They need to think with their heart and not their minds. Thank you for listening to my testimony.
