

Case 16-11 Zoning Commission Hearing
Dec 5, 2016

The Testimony Laura Williams

I have an overcrowded apartment and I am under-housed. I would prefer my Section 8 Certificate so that I may move to the area of my choosing, however, I do support the redevelopment project as it will bring some big changes around here. We need to stop these young boys from hanging out in the buildings because they're starting that again. I had to run some boys out of here the other day for smoking their drugs in the hallway. I cannot keep living like this. I work too hard to come home to deal with all of this mess. If you going to do it, do it. Stop wasting time and let's get this done. We're tired of the meetings that only bring the same things to the table and we're tired of waiting. This is too much now. Break ground and let's get this thing moving. That's all I have to say about that.
