

Case 16-11 Zoning Commission Hearing  
Dec 5, 2016

Testimony of Cassandra Jackson

---

I am Cassandra Jackson, a 44-year resident of Park Morton, and a life-long resident of Ward 1 from LeDroit Park, Adams Morgan, Columbia Heights, and now Petworth. I am one of the 5 seniors still on the Park Morton Property. I believe I can speak for the one who couldn't make it and the ones whom have passed on.

I have a great lack of trust in my District Government. I know this housing project will benefit all the parties involved. Park Morton has been on your books for sixteen plus years. I think you all should live up to your promises to reconstruct affordable housing for Park Morton and other families in this city. We are tired of being let down. Think about the future families coming to this amazing city.

We are like a diamond in the rough, clean us up, let us shine, and represent you all, and ourselves for a more productive way of living.

Thank you.
