

Thank you for an opportunity to provide comment on the MU-4A Zoning Application.

I support the MU-4A zoning application recently submitted by Jair Lynch to the zoning commission. The MU-4A would allow for 20% less density than MU-4 application that was originally submitted to the zoning commission by Jair Lynch. I do not support the amendment to our agreement with Jair Lynch submitted by Alma Gates, an Advisory Neighborhood Commissioner in the area (ANC 3D).

In addition, I am in favor of market rate housing, in addition to affordable housing options. I would like to support requests of Jahir Lynch to build "for purchase" townhomes and condominiums as well.

Thank you for an opportunity to take part in the process.
