**Re: Z.C. Case No. 18-10 (High Street, LLC – Map Amendment @ Square 5799, Lot 976 (2359 High Street, S.E.))**

Dear ANC Chair & ANC/SMD Commissioner:

Pursuant to D.C. Official Code § 1-309.10(b), the Zoning Commission for the District of Columbia hereby gives you notice of the receipt of a petition from High Street, LLC (the “Petitioner”) for approval of a map amendment to property located in the southeast quadrant of the District at 2359 High Street, S.E., also known as Square 5799, Lot 976. Please note that this case was filed electronically through the Interactive Zoning Information System (“IZIS”). You can access and file your report for this case through IZIS at <https://app.dcoz.dc.gov>.

Pursuant to Subtitle Z § 500.7, the ANC has the opportunity to file the attached Form 130 – ANC Setdown Report to provide feedback on whether or not the Zoning Commission should set down the case for public hearing. You have 30 days to file the ANC Setdown Form from the date the application was referred (Subtitle Z § 500.8).

You will also receive notice of the hearing date at least 40 calendar days in advance. If your ANC wishes to submit a written report in this case, the report must include all the information required by Subtitle Z § 505.1, which is included at the bottom of this letter. That information is also included in Form 129 – Advisory Neighborhood Commission (ANC) Report, which is attached for your convenience and is the preferred mechanism to complete your report. Any written report received prior to the date of a Commission meeting to consider final action will be given “great weight.”

Pursuant to D.C. Official Code § 1-309.10(d)(2), the Zoning Commission must wait 30 days, excluding Saturdays, Sundays, and holidays before it can make its decision on this petition. However, as a practical matter, the Commission cannot make a decision that soon, because it must first hold a public hearing and, for those cases that require proposed action to be taken, the National Capitol Planning Commission is thereafter given thirty days to review the application.

Great weight does not mean that the Zoning Commission must defer to an ANC’s view, but instead requires acknowledgement of the ANC as the source of the recommendations and explicit reference to each of the ANC’s issues and concerns. It is therefore important that the written report not only indicate whether the ANC supports or opposes the application, but that it also identify each issue and concern that led to the recommendation made.

If your ANC has not received a courtesy copy of the petition from the Petitioner, please notify us so we can assist you in obtaining a copy. If you have any questions, please do not hesitate to contact me at (202) 727-6311.

Sincerely,

Sharon S. Schellin  
Secretary to the Zoning Commission

**THIS CASE IS OF INTEREST TO ANC 8A**

On June 27, 2018, the Office of Zoning received a petition from High Street, LLC (“Petitioner”) for approval of a map amendment for the above-referenced property.

The property that is the subject of this petition consists of Lot 976 in Square 5799 in southeast Washington, D.C. (Ward 8), on property located at 2359 High Street, S.E. The property is currently zoned R-3. The Petitioner is proposing a map amendment to rezone the property to RA-2.

The purpose of the R-3 zone is to allow for row dwellings, while including areas within which row dwelling are mingled with detached dwellings, semi-attached dwellings, and groups of three or more row dwellings. It is intended to permit attached rowhouses on small lots. The R-3 zone allows a maximum height of 40 feet (three stories)<sup>1</sup>; maximum lot occupancy of 60% (for residential units, 40% for all other structures); and has minimum lot width and area requirements.

The purpose of the RA-2 zone is to permit flexibility of design by permitting all types of residential development if they conform to the height, density, and area requirements established for these zones; and to permit the construction of those institutional and semi-public buildings that would be compatible with adjoining residential uses and that are excluded from the more restrictive residential zones. The RA-2 zone provides for areas developed with predominately moderate-density residential buildings. The RA-2 zone allows a maximum height of 50 feet<sup>2</sup>; maximum lot occupancy of 60%; and a maximum density of 1.8 floor area ratio (“FAR”).

This case was filed electronically through the Interactive Zoning Information System (“IZIS”), which can be accessed through <http://dcoz.dc.gov>. For additional information, please contact Sharon S. Schellin, Secretary to the Zoning Commission at (202) 727-6311.

<sup>1</sup> Institutional buildings may be built to a height of 90 feet, provided the required setback is maintained.

<sup>2</sup> Places of worship may be built to a height of 60 feet (three stories) and institutional buildings may be built to 90 feet, provided the required setback is maintained.
