Hello - I live in Spring Valley and fully support the ladybird development at the old superfresh site. We have a family of five, moved here 8years ago and plan to educate our children and live here for many years to come. Below is my earlier submission. Thank you, Nancy 4220 Fordham 917.576.9011

Subject: Zoning Case 16-23 Letter in Support

Hello,

I am writing to share my support of the Valor / Ladybird development at the old Superfresh site. If done with adequate green space, cross walks, speed control, taste and care I feel this will be a positive development for the neighborhood.

My husband and I have lived in Spring Valley for six years and have three small children. We love the area and would like to be involved, but our schedules will not allow us to attend the meeting this evening. I hope that our ANC reps will share our support for the development.

I would also like to request a more involved traffic study and the addition of new cross walks, speed bumps and stop signs throughout Spring Valley, especially on 49th Street and Fordham Rd. The intersection near our home at Fordham Rd and Van Ness is particularly dangerous because there are NO cross walks or stop signs and drivers gain tremendous speed while driving up and down the hill. We would love to request cross walks and stop signs at all intersections on Fordham Rd, including the one at Fordham and Van Ness.

Thank you,
Nancy
