

*The stained glass windows in the chancel of the chapel depict Christ's ministry and its extension on the world.*

Since 1958, the Spring Valley campus has been an academic oasis in the midst of and benefiting from the unique cultural diversity and excitement of the Nation's Capital. Wesley Seminary offers a variety of programs and experiences, including masters and doctoral degree programs and important non-degree programs which respond to the diverse needs of our student body and their individual ministries. Wesley Seminary has also become a center for theological research as a resource not only for the campus, but on a much broader basis regionally, nationally, and internationally.
