

As a long-time resident in Dupont and Adams Morgan, I've always wanted further development at 1617 U St NW. The huge spot has so many possibilities for the neighborhood -- I love the idea of a neighborhood library (which is SO sorely needed in that location). I also would love for there to be small retail spaces here on the ground floor here as well to allow more small business to set up shop in the area. And on the upper floors, it would be fantastic to have lots of housing. This is a fantastic opportunity to allow for more neighbors, small businesses, and community amenities. Please rezone this for higher density!
