

I live near the parcels under consideration, and I strongly support upzoning them. Too many people who would like to live here are priced out of the neighborhood; anything we can do to increase the housing supply would help more people enjoy this wonderful area. Furthermore, that particular stretch of U St could be much better utilized; for residents and visitors alike, walking by 1617 U St is little better than walking along an empty stretch of sidewalk. Upzoning and future development would allow us all to get more use out of this convenient, accessible location.
