

I strongly favor upzoning 1617 U St. I live a five minute walk away and often wish that this area of town, and this intersection, was more densely built and had more housing. U St is one of if not the most popular corridors in the city and it needs more housing. People will continue to want to live in this area and if the housing supply remains static, prices will continue to rise. Every time I walk by the police station and fire station at this intersection I think about how there should be housing at this site (and about how the sidewalk should be widened - it's way too narrow for how much foot traffic it gets). Please upzone this site!
