

I am writing in support of the map amendment for 1617 U street. Allowing for additional housing on this land is a highly efficient way to use this space especially as it is so close to transit and nightlife areas. As someone who used to live just a few minutes away in Dupont Circle I know that area needs more housing and the rising rents in that area are a big part of why I had to move away from the area. This project will allow for both affordable and market rate housing that is desperately needed. Please implement this map amendment!
