

DAVID CHENEY

AIA

Partner

David demonstrates a strong background in institutional and building architecture projects coupled with the expertise to deliver complex design solutions that marry the interior and streetscape. He possesses the knowledge, skills, and management ability required to create successful projects. With over 35 years of experience, his design skills and technical knowledge of innovative construction materials, value engineering, construction methods and architectural standards, bring a high level of competency and expertise to CORE. David works to meet the overall project goals with careful management of the project team and schedules.

RESPONSIBILITIES

Principal in charge

Design vision and alignment with client goals

Design editing

ENTERTAINMENT COMPLEX & HOTEL

225,000 sf golf sports entertainment facility and 160-room hotel with game board, tee line, F&B offerings, and amenity spaces, multiple locations

ZONING COMMISSION

District of Columbia

CASE NO.24-21

EXHIBIT NO.10C

Erwin N. Andres, PE

Senior Principal & Vice President

Mr. Andres' diverse experience bridges the disciplines of civil engineering design, urban transportation planning, traffic engineering, land development, environmental analysis, and transportation systems design.

Mr. Andres has directed transportation impact studies, traffic circulation and transit studies, parking studies, and multi-modal studies for master plans, business districts and new real estate development projects of all types and sizes. He has evaluated alternative public transportation modal options. He is familiar with roadway classification and its application to transportation planning. He has performed traffic impact assessments for residential, office, shopping and convention centers, and institutional complexes. He has been responsible for the transportation and parking components for academic, government, and corporate campuses.

Erwin's project experience covers the full spectrum of land-use and includes:
