

ASHLEY ORR PE

Project Manager

Ashley has nine years of experience working on transportation design, analysis, and planning projects and is based in the Washington DC office. After starting her career working on large-scale roadway design projects, Ashley has taken these experiences and transferred her knowledge of practical design and technical concepts to the world of traffic studies and simulation, transportation impact studies, signing and pavement marking design, site access and circulation planning, and parking planning. She is passionate about helping to create public spaces that are safe, accessible, and enjoyable for all modes of travel.

Ashley is an active member of the Institute of Transportation Engineers (ITE) and currently serves at the Chesapeake and Potomac Section of ITE's Social Media Chair. She also heads the ITE Transportation Planning Council's Multimodal TIA Case Studies Working Group.

Ashley's project experience covers a spectrum of land-uses and a sampling includes:

EDUCATION

Bachelor of Science, Civil Engineering,
Specialty in Transportation, The
