Dear Mr. Williams,

This letter is in support of the rezoning petition on Connecticut and Wisconsin Avenues. We think that an objective evaluation of the comprehensive plan calls for a down-zoning. Certainly the installation of the metro was intended to get people from place to place and not to lead to the destruction of the neighborhoods it serves.

There is already noise and air pollution on Connecticut Ave. Limiting development will help prevent a tremendous increase in traffic and the additional pollution that it would cause.

Please help us to keep our neighborhood a pleasant place to live and ensure the "low density" called for in the comprehensive plan by making the business district a C-1 zone.

Thank you for your kind attention.

We are,

Sincerely yours,

ZONING COMMISSION
