My dear Mr. Williams,

I strongly urge you to support the CPAS rezoning in Case # 86-26. To us who live here it means a great deal - the neighborhood atmosphere, our stores and historic buildings.

Traffic and parking congestion is already at a very uncomfortable level and a problem. High-rise commercial construction will have a deteriorating effect on the area - more traffic, more parking congestion, more pollution, the squeezing out of local businesses.

D.C. is a beautiful city. Unfortunately, many areas have been invaded and down-graded in the name of "progress" with large office buildings which very often are concrete and glass eyesores.

We feel very deeply for our neighborhood and for the entire district. We urge you to do the same.
