

2222 Cathedral Avenue, N.W.
Washington, D.C. 20008
January 25, 1988

Dear Mr. Williams:

Re: Case 82-26, Woodley Park

I have lived in Woodley Park for over twelve years. I enjoy walking to the subway, local shops, and eating out in one of our dozen or more restaurants. My child attends the Oyster School, our neighborhood DC Public school.

Parking my car on the street and traffic congestion are the two worse problems in my neighborhood. Every year it gets worse. Crossing Cathedral Avenue in front of my house is a nightmare. The crosswalks on Connecticut are designed for sprinters, What will more commercial development do? Take our limited parking spaces and clog our streets with more cars?

Please consider parking garages and lots. Keep the building heights low. Keep Connecticut Avenue beautiful. The two-house size buildings are wonderful. Please don't let us end up like Wisconsin Avenue. Have you found Johnson's Flower Center yet. It wasn't buried when it was in the old "Best" building.

WE LIVE HERE. Help us . Keep the building heights low. Encourage residential use.

Sincerely,

Barbara J. Ioanes
