Dear Ms. Bennett,

As a resident of the Kennedy-Warren, at 3133 Connecticut Ave, I earnestly and sincerely exhort you to do whatever you can to restrict the PUD High Rise development in our Cleveland Park area.

I ask this, not only because of the aesthetic and historic nature of our area, but also out of concern for the additional pollution, parking and traffic problems such high-density structures generate.

In regards to the area at the northeast corner of Connecticut Avenue and Ordway Street, it would suit the neighborhood and certainly many of us residents if the old one-story commercial building could be refurbished and opened for business.

Your interest and consideration to these matters, which are a very great concern to us, will be very greatly appreciated.

Kind Regards,

Edward M. Jones
