RE: Case 86-28

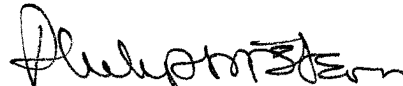

Dear Ms. Bennett:

This is to convey my concern about the high-rise office development contemplated in the aforementioned case. Not only is this area a National Register historic district, but high-rise development will exacerbate traffic, parking and pollution problems in an area that the Comprehensive Plan says should remain a "low density, local neighborhood center".

I request that the Cleveland Park Historical Society's position be adopted to limit PUDs to forty feet in height.

Thank you for your consideration.

Sincerely yours,

Philip M. Stern
