Dear Ms. Bennett

Re: Case 86-26

This note is to urge you to limit the PUD high-rise office development in The Cleveland Park historical and most unusual district. It is neighborhoods like ours that give Washington its individuality and character rather than being an impersonal conglomeration of glass fronted high office buildings - not to mention traffic and pollution. We understand that Mayor Barry is in full agreement.

Sincerely,

Jane & Howard Roman
(residents for thirty four years)
