Mr. Lindsley Williams, Chairman
The Zoning Commission
The District Building, Room 11
Washington, D.C. 20004

Dear Mr. Williams:

I am a resident of Cleveland Park, and am familiar with the efforts of big developers to come into communities like ours and those on the Wisconsin Avenue corridor and to take over neighborhood centers for their own purposes. They change the whole face of the city and cause much dislocation and discomfiture in residential neighborhoods.

Residents are gradually moving out of the city to either the suburbs or their own original home areas in distant states.

I recently heard several of these movers saying, "Washington is no longer a residential city. It's just a business city. It's no longer home."

My neighbors and I here in Cleveland Park are deeply concerned, and we urge your Commission to take immediate steps to prevent further erosion of pleasant, home-town type neighborhoods like ours.

With kindest regards,

Yours sincerely,

Charlotte Richmond
