Re: Zoning Commission Case No. 95-4
Rezoning of Union Station Area

Dear Ms. Robinson:

This is to advise that we intend to testify in the above-referenced matter. We represent clients who own property on both sides of the railroad tracks. Some of the rezoning proposals for those properties were not included within the scope of the original notice but have been included within the supplemental notice. In addition, two of our witnesses cannot be available for testimony on September 25, 1995, due to religious observances. Accordingly, we plan to make our complete presentation on all matters with respect to the proposed zoning changes at the public hearing on November 9, 1995.

Feel free to call if you have any questions with respect to this matter.

Sincerely,

Norman M. Glasgow, Jr.

Steven E. Sher
Director of Zoning Services
